RACER: \_\_\_\_\_

**CAIN'S QUEST 2020 GAS FORM**

**Please note: This form pertains to ONE RACER ONLY**  
**Two forms are required per team if gas is required at the Cain's Quest Fueling Station**

If you would like to purchase gas at the designated **Cain's Quest Fueling Station** in **Cache River, Eagle Plateau (3), and Sail Lake (16)** please indicate in litres how much gas you would like to have available for your use at each of these locations. Please note, Cache River is **NOT** an official checkpoint but a fuel stop only. At CQ fueling stations, racers will only be permitted to take enough gas to get them to the next fueling station up to a maximum of 100L per team.

Gas can be purchased from the local pumps at the following checkpoints: Churchill Falls (1) & (17), Happy Valley Goose Bay (2), L'anse au Clair (4), Red Bay (5), Port Hope Simpson (6), Cartwright (7), Rigolet (9), Makkovik (10), Postville (11), Hopedale (12), Nain (13), Natuashish (14) .

Gas is to be purchased prior to the race and **no refunds will be given for unused gas**. If racers wish to take the gas they pay for, it must be taken directly from the particular Cain's Quest fueling station referred to on this form. It cannot be transferred to any other Cain's Quest fueling station and will not be provided to racers at any other time. This gas will be available for Cain's Quest registered racers only and will not be supplied to support teams. This form must be submitted by **August 30, 2019**. Late requests for gas will not be accepted.

Racers will be charged pump price plus an additional \$5/Litre to account for the high fuel transportation cost. Cain's Quest will be providing high octane fuel at designated Cain's Quest fueling stations. Racers are responsible for their own snowmobile injection oil.
